

## Determining Course Equivalents for Middlebury Institute (MI)'s 30-unit Advanced Entry MATESOL Program

If you are a UCSC Linguistics or Language Studies major, you need (the equivalent of) at least 7 MI semester units to be eligible for MI's Advanced Entry MATESOL Program. At least 3 of these MI semester units **cannot** be 'required electives' units.

See the chart below for the equivalencies between UCSC courses and MI semester units. (If a Ling or APLX is not listed, it is not equivalent to MI semester units.)

Remember: All UCSC courses must be completed with a grade of B or better, and no more than 5 years before you apply to MI. You must be fully qualified for admission to MI's program, as determined by MI; credits will be accepted at their discretion.

UCSC Course(s)	MI Equivalent	# of MI Semester Units
Ling 50	2/3 of Language Analysis	2 (you take the 3rd unit at MI)
Ling 80C PLUS Ling 154	Intro to Sociolinguistics	3
APLX 135/235	Principles & Practices of Language Teaching	3
Ling 80V	required electives	2 (required electives)
Ling 117	required electives	2 (required electives)
APLX 113	required electives	2 (required electives)
